If you're considering an Oracle or NetSuite project, or need to optimize what you currently have, contact us today at 612.238.8800

Our clients choose us because of our **comprehensive approach** and **deep industry expertise**.

Our Approach is Strategic

Our teams are strategic advisors, problem solvers and proactive partners who leverage their industry expertise to offer the best solution.

Our Expertise is Diverse

Our teams are seasoned and diverse, giving you a more holistic partner who understands your business objectives and can tackle challenges more quickly and creatively.

Rescuers

Have a system integrator that isn't up to your expectations? Contact us. We regularly rescue organizations from partners that over promise and under deliver.

Employees, not Contractors

Get a reliable, engaged and consistent team for the entirety of your project. On future projects, don't start from scratch with a new team.

Repeatable Clients

Our clients aren't just referenceable. They return to us again and again. In fact, we average five implementations per client.

"BTM pushed us to think critically about the solutions, driving the implementation, and providing strategic guidance on what's best for our business needs."
- SCHEELS

"The BTM Global team brings invaluable NetSuite experience that has enabled us to put together a project that moved quickly to address our challenges while minimizing disruptions to our bicoastal operations."
- KRISS USA

"BTM Global brings expertise to implementing Oracle Retail Xstore Point of Service in the cloud. This experience led us to a successful implementation in record time to deliver the best customer experience."
– Marshall Retail Group

 BTM GLOBAL

Experience our different approach. It's why so many clients return to us to implement additional projects, address new problems and provide other services to make their business operations more seamless, efficient and profitable.
